END OF SALE — THANK YOU

DON'T FORGET TO ORDER YOUR PRICE LIST. KEEP POSTED ON VALUES. COIN COLLECTORS' COLUMN OF COMMENTS

Thank you again, and again, for the wonderful patronage and kind co-operation at the 179th sale held Nov. 18th. Over 600 bid sheets were received, and we do appreciate your mailing them early, to avoid that last day rush, when mail is heavy, and clerical work so great. I also want to thank all of the buyers who wrote to me after the sale expressing their appreciation and satisfaction of the condition of the coins they received. Because there were so many, I can print only a few of their comments this time.

From Oklahoma — "I was pleased with every coin I received, as usual at your auctions."

From Illinois — "They are very satisfactory and I want to thank you for the way you handled my bids."

From California — "It was certainly a big and wonderful lot of coins, and in quality they are even more than hoped for."

From Pennsylvania — "I am very happy with all coins received. The items are entirely satisfactory and 100% as advertised".

Experienced Collectors sent the above testimonials, all large old-time collectors who know their coins. Because of the unusually heavy snow in some eastern states, parcels were delayed after the sale in many cases. The mail was piled high in some terminals, just as the snow was outside. There were delays in some orders being received, but the collectors were very patient and considerate.

THE UNITED STATES EARLY SILVER DOLLARS FROM
1794 TO 1803

by M. H. Bolender

The only former reference work was Haseltine's list published in 1881, merely a pamphlet or sale catalogue with no plates. This new work follows Haseltine's numbers, but with additions and corrections, plus a simplification of descriptions and the important addition of illustrations of the eighty-four obverses and the seventy-five reverses. Quick-finding lists and helpful tables make attribution not only quick and easy, but accurate and pleasant.

The descriptive list is prefaced by a history of early silver dollars, and a loose-leaf valuation sheet is included quoting current prices of all varieties in five condition grades.

This book is the result of some 40 years' experience and collecting, during which time over 5,000 specimens were examined. A record of the frequency in which each variety appeared was kept, and the degree of rarity given in the text.

This attractive large volume, size 9¼ x 12¼ inches, is quality printed, and handsomely bound in blue cloth, lettered in gold.

The price is \$10.00 which is no more than the Haseltine reprints cost to-day (and those are with no plates). We believe you can make no better investment to-day, than by adding this useful book to your library, and if it does not bring you a great deal of pleasure also, your money will be cheerfully refunded upon return of the book.
